PROFILE

Computer Science graduate from BRAC University with hands-on experience in Machine Learning, Deep Learning, and Computer Vision. Skilled in designing and evaluating image classification, object detection, and image segmentation models using PyTorch, TensorFlow, OpenCV, and modern deep learning architectures. Experienced in AI research, model evaluation, and full-stack application development. Seeking opportunities in AI/ML Engineering, Computer Vision, and Research.

TECHNICAL SKILLS

- Python, C, C++
- PyTorch, TensorFlow, OpenCV
- React.js, Node.js, Express.js
- HTML, Tailwind CSS
- MongoDB, SQL
- Git, GitHub, VS Code, Linux
- Machine Learning, Deep Learning, Computer Vision, Image Segmentation, Object Detection, Attention Mechanisms
- OOP, Data Structures & Algorithms, Problem Solving

PROJECTS

Shrimp Disease Detection (Deep Learning)

- Developed models for Black Gill and White Spot detection using real dataset.
- Used ResNet, MobileNet (classification), YOLO (detection), U-Net (segmentation).
- Integrated attention mechanisms to improve model performance.

BE-KNN (QPAIN Conference)

- Designed deterministic ensemble KNN to improve classification stability.
- Implemented and evaluated using Python.

Shop Inventory & Billing System (MERN)

- Developed a full-stack inventory and billing system using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based user authentication, inventory management, invoice generation, stock tracking, and sales reporting.
- Deployed the frontend on Vercel and the backend on Render using MongoDB Atlas.

Adventure Maze (OpenGL)

- Developed maze game using python and OpenGL with rendering and collision logic.

RESEARCH EXPERIENCE

Research Presenter — QPAIN Conference 2026

- Presented the BE-KNN research project and demonstrated machine learning evaluation methodologies.
- Communicated research findings to academic and technical audiences.
- Participated in discussions on machine learning applications and future research directions.

EDUCATION

Bachelor of Science in Computer Science
BRAC University

CGPA: 3.20 / 4.00

Higher Secondary
Comilla Shikkha Board Model College

INTERESTS

Machine Learning • Deep Learning • Computer Vision • Image Segmentation • Object Detection • Medical Image Analysis • Explainable AI
